**PLEASE JOIN  
THE NEW YORK STATE DEPARTMENT OF  
TRANSPORTATION AT A  
PUBLIC INFORMATION MEETING FOR  
PROJECT IDENTIFICATION NUMBER 5308.39  
Safety Improvement Project  
US Route 62, Walnut and Ferry Avenues  
City of Niagara Falls, Niagara County**

The New York State Department of Transportation (NYSDOT) will hold a public information meeting for the proposed safety improvement project on US Route 62, Walnut and Ferry Avenues in the City of Niagara Falls.

Project Description:

The project proposes to reduce the number of travel lanes from two down to one on both Walnut Avenue and Ferry Avenue, while adding a bike lane on each road. Each road will consist of one travel lane, a parking lane, and bike lane in the same direction as traffic, with a buffer space between the bike lane and travel lane. Curb bump-outs will be installed at select intersections on Walnut and Ferry Avenues.

The project proposes to modify or reconstruct all existing curb ramps throughout the project corridor, as needed, to bring them into compliance with ADA, PROWAG requirements and NYSDOT policies and standards.

The meeting will be held in an open forum format at the following time and location:

**Tuesday, December 7, 2021, 5:30 pm to 7:30 pm  
City Hall  
745 Main Street, Niagara Falls, NY 14301**

There will be displays and informational stations staffed with NYSDOT representatives familiar with the various aspects of the proposed project. NYSDOT representatives will, also, be available to answer residents' questions and provide information about the project.

Further information on the project may be obtained from and any written comments sent to:
