Announcements and Key Topics

EPA is in the process of updating the site profile page with additional current information. When the updates are complete, we will remove this message. Until then, we thank you for your patience and consideration in this matter.

Background

The Hooker (S-Area) site is a former landfill in Niagara Falls, New York. Occidental Chemical Corporation (OCC) owns the 8-acre site property. OCC disposed of about 63,000 tons of chemical ...
