Scopes / Subjects of examination: A test designed to evaluate knowledge, skills and /or abilities in the following areas:

1. **Preparing written material** - These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

3. **Principles and practices of purchasing** - These questions test for candidates' knowledge of the principles guiding governmental purchasing operations and the ability to put them into practice. These questions may deal with but are not necessarily limited to such matters as the analysis of bids, the use of specifications, the award of contracts, the analysis of market factors that can affect the cost of a purchase, and the application of a set of rules to determine how to proceed with a purchase. Some arithmetic computation may be necessary. No specific knowledge of NYS purchasing laws, rules and regulations will be required to answer these questions.
4. **Supervision** - These questions test for knowledge of the principles and practices employed in planning, organizing, and controlling the activities of a work unit toward predetermined objectives. The concepts covered, usually in a situational question format, include such topics as assigning and reviewing work; evaluating performance; maintaining work standards; motivating and developing subordinates; implementing procedural change; increasing efficiency; and dealing with problems of absenteeism, morale, and discipline.
