

CITY OF NIAGARA FALLS, NEW YORK

AMERICANS WITH DISABILITIES ACT (ADA) TASK FORCE

The City of Niagara Falls established an ADA Task Force to assist, encourage, and help enable persons with disabilities to participate in the social and economic life of our community. This task force seeks to correct situations by promoting access to all public facilities, helping disabled persons find productive roles within the community, and dispelling false notions about the nature of disabilities.

WELCOME to the Official Website for the City ADA Task Force

The ADA Task Force serves as an agency that promotes inclusion, because we believe that there is a role for everybody. Our primary goal is for our citizens to be able to utilize all public facilities available within the community. In an effort to accomplish the above, this task force will diligently work to ensure that citizens with disabilities have accessibility and are included in the City's community life.

The City of Niagara Falls is committed to make the [www.niagara fallsusa.org](http://www.niagarafallsusa.org) website compliant with the Americans with Disabilities Act. At this time we recognize that not all areas of our website may be ADA compliant. However, we are now in the process of redesigning and creating new website content to be compliant with the federal guidelines.

We welcome any feedback on how to improve the site's accessibility for all users. Please contact the webmaster. It is our goal to develop a website that is accessible to everyone!
