RE: **Amendment of City Zoning Ordinance**
Chapter 1328.13 – “Short-Term Rental Units”

Mayor Robert Restaino is pleased to submit the following proposed amendment to Chapter 1328.13 of the Niagara Falls codified zoning ordinance, entitled “Short-Term Rental Units”, for review by the Niagara Falls Planning Board. With the proliferation of units being utilized for short-term rental (hereinafter “STR”), the stated purpose of this amendment is:

to regulate the short-term rental of dwelling units within the City and to establish comprehensive registration and licensing regulations to safeguard the public health, safety and welfare by regulating and controlling the use, occupancy, oversight and maintenance of STR properties. The City recognizes that extensive short-term rentals endanger the residential character of the community and may cause disruption to the peace, quiet and enjoyment of neighboring homeowners. Accordingly, in order to respect to the property rights and interests of all homeowners in the City, this the proposed amendment seeks to achieve a balance between those who offer their homes as STR properties and other adjacent property owners.

Additionally, this Chapter seeks to limit the proliferation of STR units throughout all areas of the City by creating a boundary area where newly created STR units will be required to situate (previously existing short-term rentals will be exempt from this requirement and can remain in their current location as long as they continue under current ownership and remain current on the licensing requirements). The boundary area is located in the downtown section of the City in proximity to the State Park and the traditional tourist area. This will limit the spread of STRs into more remote parts of the City and hopefully create a “critical mass” in the lodging and hospitality industry in our downtown tourist zone.

Specifically, the amended Chapter will continue to require the basic standards featured in the existing ordinance, requiring a special permit, owner operation, approved residential structures, etc. However, with the new developed licensing requirements, a special permit will now only be required once, at the beginning of the STR process, instead of every four (4) years. Also, owners of STRs must now maintain at least \$1 million dollars' worth of liability insurance coverage and pay a fee of \$250.00 for single unit dwellings and \$400.00 for two unit rental dwellings prior to the issuance of a special permit.

A new feature included in the proposed amendment is the creation of an annual licensing requirement. Currently, the owner of a STR has only to submit documentation regarding building/safety code compliance every four (4) years. Going forward, the owner of a STR must attest that the unit complies with all laws, codes and tax regulations and be subject to an inspection on a yearly basis. The annual licensing fee is set at \$250.00 for single unit dwellings and \$400.00 for two unit rental dwellings, rates that are comparable to other established tourist destinations.

Under the proposed amendment, owners of an STR shall also be required to register with *Airbnb*, the online platform that connects hosts renting out space in their homes with guests seeking lodging. The owner shall then pay to Airbnb all required taxes and fees, including, but not limited to, Occupancy Taxes. Thus, STRs will now be required to pay taxes and fees like hotels do for providing lodging services.

Owners of STRs will now be held responsible for any nuisance violation at the subject property and must ensure that all occupants of the dwelling unit refrain from making any disturbing, offensive or excessive noise between the hours of 10 p.m. and 7 a.m. which would annoy or disturb the peace. In order to immediately address nuisance issues, the owner must now designate a local contact who shall be available twenty-four (24) hours per day, seven (7) days per week with the ability to respond to any complaint regarding the condition, operation, or conduct of occupants of the STR unit and taking immediate action to resolve any such complaints.

While the application process for both the special permit and the STR license are streamlined, the Chapter's stringent safety and land-use requirements are still maintained. Now the amended Chapter will feature enhanced enforcement and penalties should the STR unit fail to comply with all applicable codes and regulations. In addition to criminal and or civil penalties, continued noncompliance by the property owner can lead to a suspension and/or termination of the STR license.

Finally, in order to provide the STR owner with adequate due process, an appeals procedure has also been added to this Chapter which may be exercised prior to the imposition of a suspension or revocation of the subject license.

Overall, the Administration believes that this amendment will boost our robust tourist industry by further concentrating lodging opportunities in the downtown area, promote fair and equal opportunities for STR operators and enhance the lodging experience of our

visitors while permitting the City to maintain and enforce the high standards we have come to expect from our hospitality industry.

Should the Planning Board have any questions regarding the proposed amendment, I may be contacted at 286-4423. Thank you for your courtesy and cooperation in this matter.
