ALTERNATE OVERNIGHT PARKING

Alternate overnight parking is based on the next day's date and the addresses of the homes on the street where you reside.

FOR EXAMPLE: If today's date is June 5, tomorrow's date is June 6, an **EVEN** date. You would therefore park on the side of the street with **EVEN** addresses such as 502 or 504.

If today's date is June 6, tomorrow's date is June 7, an **ODD** date. You would therefore park on the side of the street with **ODD** addresses such as 501 or 503.

Be sure to pay attention to the date, especially when the last day of the month is the 31st. Since the 31st and the 1st are both odd dates you will be parking on the same side of the street two nights in a row.
