The City Council  
Niagara Falls, New York

*RE: National Grid Outdoor Street Light Conversion Program*

Council Members:

During the last City Council Meeting Marc Gschwend, Lead Program Manager from National Grid, made a presentation regarding the Conversion Program described in the materials he distributed to Council Members.

It is requested that the City proceed to initiate this Conversion Program. National Grid requires a letter from the City in order to begin the process. Attached hereto is a proposed letter from the Mayor to National Grid as a first step in the process.

Will the Council so approve and authorize the Mayor to execute the attached letter and also execute any additional documents which may be necessary in order to move this conversion process along provided the same are acceptable to the Corporation Counsel in form and content?

Respectfully submitted,

PAUL A. DYSTER  
Mayor
