	The Pump Doctor Inc. proposes to remove old Gasboy system and replace with a new Gasboy Islander Prime system with web based software. We will do factory startup and train personnel how operate. We are reusing existing conduits if there any problems there may be extra labor and materials. We will also connect tank monitor to Ethernet so inventory can be checked remotely from PC. We will require two network drops in power room. We quoted labor at prevailing rate if this is not the case let us know and we will requote.
