The City Council  
Niagara Falls, New York

***RE: Agreement with GObike (Healthy Streets Initiative)  
Chasm Avenue and Monteagle Street Intersection Improvement Project***

Council Members:

GObike recently presented their proposed intersection improvement project to the Traffic Advisory Commission on March 28, 2022. During that meeting, the Commission unanimously expressed their support for this project, which they felt was a positive step toward improving safety at this intersection and the use of striping, with its inexpensive and temporary nature, could be easily implemented (and later removed if deemed necessary).

It is hereby requested that the City Council approve the project and grant GObike permission to make temporary improvements within the Right of Way at the intersection of Main Street, Chasm Avenue, and Monteagle Street. These improvements will consist of painting, lane stripping, and signage as provided in the included materials. The proposed agreement shall be for one (1) year, with a mutual option to extend the agreement beyond the initial one-year term for maintenance purposes. There will be no cost to the City as GObike will be responsible to pay for all installation and maintenance costs associated with this project through their grant award from the 2021-2022 Verizon Media Fund.

Will the Council so approve and authorize the Mayor to execute the proposed agreement provided that the same is satisfactory to the Corporation Counsel in both form and content?

Respectfully submitted,

ROBERT M. RESTAINO  
Mayor
